

WALL MOUNTED

NOCOMAX

The fixed aerial surface bio-disinfection unit for large volumes.

Manufactured in France by OxyPharm according to ISO 13485.

The **Wall mounted nocomax** is a surface biodisinfection unit developed for industrial use, which can treat volumes of 500 to 20,000 m³.

It ensures aerial surface disinfection or disinsectisation when used along with our Nocolyse or Oxypy ranges. A dry fog allows a uniform treatment of every cm² of surfaces, as a preventive or curative measure. The device must be mounted on a wall and can only be started with a timer.

It is suitable for all fields of activity: agri-food, health, industry, etc.

EASY TO USE
Easy adjustment for the volume of the room to be treated thanks to its touchpad.

ECONOMICAL
Very small amount of product required.

GUARANTEED TIME SAVING
No preparation required before treatment (except for cleaning) or after treatment (no need to wipe or ventilate).

COMPATIBILITY

- Disinfectant cans (20 L): Nocolyse, Nocolyse+, Nocolyse Food, Nocolyse One Shot.
- Insecticide cans (20 L): Oxypy, Oxypy+.

PRECAUTIONS FOR USE

Read all product information before use. Instructions for use are available on request by email: info@oxypharm.net

TECHNICAL CHARACTERISTICS

Dimensions (L x W x H cm)	53.8 x 56.8 x 104.4 cm
Empty weight	45 kg
Packaging	
- Dimensions (L x W x H cm)	60 x 80 x 120 cm
- Weight	50 kg
Maximal treatment volume	20,000 m ³
Turbine speed	22,000 rpm
Output speed of the mist	80 m/s
Average liquid flow rate	6,000 ml/h
Storage conditions	
- Temperature	0°C to 50°C
- Hygrometry	25% to 75%
Power	2000 W
Average particle size	5 μ

THE BIO-DISINFECTION PROCESS

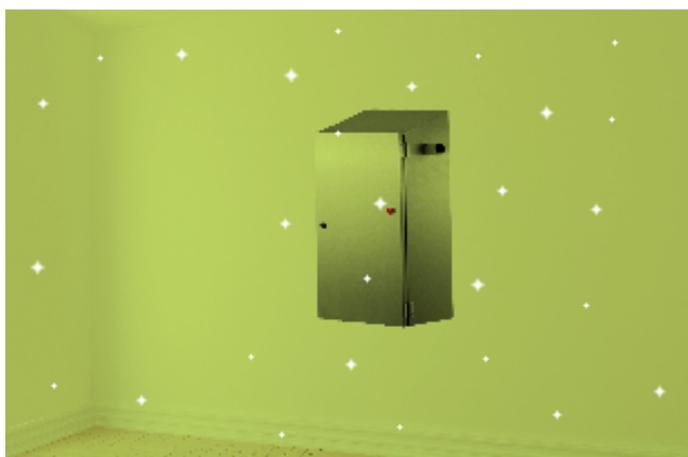

1. INSTALLATION

Installation of the Wall mounted nocomax in the room to be treated.

2. SPRAYING

Spraying of the product in the form of a dry mist in the room to be treated, evenly over all accessible surfaces.

3. CONTACT TIME

The dry mist remains suspended in the air and eliminates all micro-organisms (viruses, bacteria, spores, yeasts, etc.) present on the surfaces of the room.

4. BIODEGRADATION

The dry mist naturally degrades without leaving any residue and without corroding surfaces (including electronic and mechanical ones). No need to wipe or ventilate.

ACCESSORIES

Nocobox

Allows control of the microbiological efficiency obtained.

Nocotest

Checks the proper distribution of the products on the surfaces.
