## REFERENCES AND PACKAGING

	REFERENCE
1 L BOTTLE	4200.001
20L CAN	4200.020

## COMPOSITION

Permethrin 5% • EC=258-067-9 / CAS=52645-53-1.  
Chrysanthemum cinerariaefolium, extract of open and mature *Tanacetum cinerariifolium* flowers obtained with supercritical carbon dioxide 0.25% • EC = 289-699-3 / CAS = 89997-63-7 Pyperonyl butoxide 0.5% • EC=200-076-7 / CAS = 51-03-6.

## STORAGE

Store the product in its original packaging, upright and in a cool, well-ventilated area.

- Storage in the original closed packaging: 2 years from the date of manufacture.
- Storage once opened: 2 months from the date of opening.

## INSTRUCTIONS FOR USE

- 1 Follow the instructions for use of the **Nocotech** spray device (see instructions for use and quickstart document).
  - 2 Shake the bottle before use.
  - 3 Screw the 1 L bottle into the **Nocospray** spraying device or the 20 L ca into the **Nocomax** spraying device.
  - 4 Set the device according to the volume (V) of the room.
  - 5 When the spraying is completed, follow a contact time of 2 hours and then ventilate the room for 10 minutes.
  - 6 Remove the bottle after use and close it again.
- The treatment can be renewed every 4 weeks.
- 7 If there is a bed in the space to be treated, remove the mattress from the bed and place it on its edge before the treatment.

## IMPORTANT

- Throughout the operation of the machine and the contact time, keep the room closed and do not enter it. The treatment must be performed away from humans.
