

GLOSAIR™

# Fully automated concept

Advanced  
disinfection  
technology

Glosair is  
a brand of the group

OXY PHARM®

## PROTECTING YOUR ENVIRONMENT FROM PATHOGENS.

The ready-to-use Oxy'Pharm GLOSAIR disinfection system is automated and uses the GLOSAIR diffusion machine in combination with the GLOSAIR 400 biodegradable disinfectant.

The airborne disinfection of surfaces treats surfaces that are often inaccessible and sometimes complex. It aims to deliver an even spread of the disinfectant product on the surfaces of the room being treated.

**The airborne disinfection of surfaces by GLOSAIR is effective on viruses, bacteria, yeasts, spores and fungi.**

### GLOSAIR 400

GLOSAIR 400 is a ready-to-use surface bio-disinfection product that contains 6% hydrogen peroxide (H<sub>2</sub>O<sub>2</sub>) and silver, and must be used with the Glosair diffusion devices.

It is 99.9% biodegradable and does not leave residues on the surfaces after treatment. It is non-toxic, non-allergenic, non-corrosive to surfaces (including electronic surfaces) and does not harm the environment.

*To use with the GLOSAIR™ system.*

### Advantages

-  Biodegradable
-  Non toxic
-  Non corroding
-  No residue
-  Non allergenic

## GLOSAIR™ SYSTEM

The GLOSAIR machine uses the concept of a heating and ionising turbine that diffuses the liquid disinfectant in the form of a dry mist. This prevents any corrosion of the treated surfaces.

The disinfection of the surfaces is made as simple as possible thanks to the touch screen which is used to record rooms, adjust the volume of the room to be treated (from 10 to 2000 m<sup>3</sup>) with the option to delay the start, and consult the history of last treatments performed.

- Made in France by Oxy'Pharm according to the ISO 13485 standard
- Bactericidal, virucidal, sporicidal, fungicidal, mycobactericidal
- Complies with the NFT 72281 and EN 17272 standards
- Compliant with the following standards:
 

EN 13697	EN 13624	EN 13610
EN 13704	EN 13727	EN 14204
EN 14348	EN 14476	EN 14675
EN 1276	EN 1656	
EN 1650	EN 1657	

## Advantages

-  Easy to handle
-  Robust
-  Programmable
-  Smart
